

Alerts

Is your business looking for a more efficient way to monitor the pulse of your company? Sage MAS 500 ERP Alerts is an impressive data monitoring module designed to keep you and your personnel "in the know." This innovative product utilizes your e-mail system to notify you whenever something significant happens in your Sage MAS 500 database. The notifications that you choose to send can be selected from a series of predefined alerts, which can be quickly tailored to suit your specific needs. Alerts are critical for distributors and manufacturers who need to manage inventory levels and production costs.

When you use Alerts to proactively monitor your business, your company can lower business cycle times, dramatically improve employee communication, and allow your customers to enjoy personalized attention with every transaction. Plus, with Alerts, your company's financial information not only remains within your reach, but your accounting database actively contributes to the efficiency of your business and to the satisfaction of your customers.

BENEFITS

- Monitor date and time-sensitive events.
- Be automatically informed regarding credit holds, inventory thresholds, sales ratios, urgency levels, and priority client transactions.
- Customize alerts to fit your company's needs.
- Merge data into e-mail messages.
- Keep employees informed for better decision making.
- Improve customer service and retain customers longer.
- Provide response to changing business conditions 24-hours-a-day, seven-days-a-week.

SAGE MAS 500 SOLUTIONS

- CRM and E-business
- Financials and Project Accounting
- Distribution and Manufacturing
- Human Resources and Payroll
- Customization and Integration
- Business Intelligence

◀ Predefine what system occurrences trigger alerts, who they go to, and the specific message that is sent for each condition. In this example, an alert will be sent to collections staff and management when an order causes a customer to exceed their credit limit.
