About SageCRM

Award-winning SageCRM delivers full suite CRM (comprising sales, marketing, and customer service automation) and offers a broad range of functionality with a low TCO to small and mid-sized organizations globally. SageCRM equips sales, marketing, and customer service teams with the tools they need to find new customers, close sales faster, and build lasting, more profitable relationships across all channels. Thanks to its ERP integration capabilities, the SageCRM front office is powered by data from the back office to give sales, marketing, customer service and other front office staff a true 360 degree view of customers across front and back office functions, differentiating it from many other CRM solutions in the market today.
